

## Proportion-Air, Inc. Proposition 65 Warning

Proportion-Air, Inc.  
8250 N 600 W  
McCordsville, IN 46055

March 20, 2020

Products produced by Proportion-Air, Inc. contain chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm.

California's Proposition 65 requires a warning for any product that may contain any one of the more than 700 chemicals that the Office of Environmental Health Hazard Assessment (OEHHA) of the California Environmental Protection Agency considers a carcinogen or a reproductive toxicant.

Many of the elements listed under Proposition 65 are common everyday items such as sawdust, brass (frequently used in household water fittings and doorknobs), nickel (contained in US coins and clothing accessories), PVC (used in most lawn irrigation systems) and a multitude of other commonly used materials.

We have identified the following listed chemicals as being contained in our product(s): nickel (in plating), lead (used in very small amounts in brass), and tetrafluoroethylene (used in wire insulation).

We are providing this warning in an excess of caution and it should not be taken as an admission that a warning is required. We have no reason to believe that normal handling of our products will result in any significant risk, even assuming lifetime exposure, or exposure at 1,000 times the level that results from handling our products.

The list of chemicals changes frequently. Please visit <https://oehha.ca.gov/proposition-65/proposition-65-list> to check the latest Proposition 65 list.

Daniel E. Cook  
President  
Proportion-Air, Inc.
